 \*Use with 3mm PVC

### IMAGE RESOLUTION

All files and images must have a minimum of 300 dpi resolution in order to have a clear and high-quality prints. Only images with a resolution of 300 dpi or higher will look good. **\*\*Avoid taking images directly from the web because they usually are 72 dpi or lower.**

### MATERIAL DESCRIPTION FOR SIGNS | ALL SIGNS ARE DOUBLE-SIDED

- 3mm PVC : 2 grommets on top**  
 PVC is a smooth rigid, solid plastic material that is ideal for tough, long lasting outdoor signs. It is our customer's most preferred material.
- 4mm Coroplast : NO grommets**  
 Corrugated plastic is also a preferred form of outdoor signage due to its ability to withstand many types of environments and weather conditions. It is not as heavy or flat as 3mm PVC.
